OPTIONAL CLAUSES TO THE MATERIAL DAMAGE SECTION

The Brokernet Policy Certificate states whether any of the following Optional Clauses are included in the policy. The terms of these clauses attaching to this Section of the Policy are deemed to be incorporated within the policy. If there is any conflict or inconsistency between a clause and any other terms of the policy (other than the General Exclusions), then the terms of the clause will prevail. Where an Optional Clause shows a separate Sum Insured on the Brokernet Policy Certificate then the Insurers limit of liability shall not exceed that Sum Insured in respect of that Optional Clause.

- d) all thermostats, pans, blankets and extinguishers are at all times maintained in good working order;
- e) extraction filters are cleaned weekly and extraction flues and ducting are inspected monthly and cleaned as necessary;
- f) where the fryer is an electric fryer, a separate non-adjustable manual reset thermostat is fitted to it and set to disconnect the power supply when the temperature of the cooking liquid reaches 240 degrees centigrade; and
- g) all cooking liquids for disposal are at all times stored in a metal bin with a close-fitting metal lid until removed from the Situation.

The cover provided by this Clause excludes Loss or Damage to lighting or heating elements; fuses or protective devices; or electrical contacts at which sparking or arcing occurs in ordinary working.

The Insurer will cover the Insured for the limit stated in the Brokernet Policy Certificate.

Material Damage Section (continued)

WORKS OF ART – BASIS OF SETTLEMENT

Where a claim is payable for damage to Insured Property comprising a work of art, the Insurer may appoint an independent and suitably qualified valuer or restorer to determine whether the work of art can be restored to its pre-damage condition.

If the valuer or restorer determines that the work of art cannot be economically restored to its pre-damage condition, the work of art will be deemed destroyed. Its pre-damage value will be determined by the valuer, or, providing the restorer is suitably qualified, by the restorer. The amount payable as indemnity will be the difference between the pre-damage value and any salvage value of the damaged work of art.

If the valuer or restorer determines that the work of art can be economically restored to its pre-damage condition, the amount payable as indemnity will be the cost of restoration or, if the restoration is not carried out, the restorer's reasonable estimate of the cost of restoration.

Where any lost or damaged work of art is an item forming part of a pair or set of items, and the lost or damaged item cannot be economically restored to its pre-loss condition, the item will be deemed totally lost or destroyed. The amount payable as indemnity will be such proportion of the pre-loss value of the pair or set as the item bears to the set of items.

Providing a work of art has been satisfactorily restored following damage, this insurance will not cover any reduction in market value due solely to the fact of the work of art having been damaged and restored. The onus of proving that any restoration work is unsatisfactory rests with the Insured.

Material Damage Section (continued)
